Are You Rheumatic?

Many Pangs That Pass for Rheumatism
Are Really Due to Weak Kidneys

Is it rheumatism?
Not every pain is.
Weak kidneys let uric acid collect.
Uric acid causes many queer pains.
In the thigh it's sciatica;
In the back, lumbago;
In the nerves, neuritis.
Gout, Gravel, dropsy are uric troubles.
When you suspect the kidneys use
Doan's Kidney Pills—
The home-recommended remedy.

Norway testimony is the best proof.
Ask your neighbor.

Read this Norway woman's story:

Mrs. F. L. Starbird, in rear Deeds Hot-
tel, says: Doan's Kidney Pills have been
an old standby with me for years. At
times my kidneys don't act as they should
or my back aches. I often have blinding
dizzy spells and rheumatic pains when
my finger joints seem to swell and are
painful. I always use Doan's Kidney
Pills from Noyes Drug Store at these
times and they quickly relieve me and
cure me of the attack. I can't say
enough in praise of Doan's.

Price 60c, at all dealers. Don't sim-
ply ask for a kidney remedy—get Doan's
Kidney Pills—the same that Mrs. Star-
bird had. Foster-Milburn Co., Mfrs.,

IN MEMORIAM

In sad and loving memory of Our Darling
Mother, Mrs. Esther Poland, who departed
this life March 14, 1921. Much loved and
respected.
Dearest Mother, thou hast left us,
And thy loss we deeply feel,
But it's God who hath bereft us,
He can all our sorrows heal.
We miss thee from our home, Mother,
We miss thee from thy place,
A shadow o'er our life is cast,
We miss the sunshine of thy face.
We miss thy kind and willing hand,
Thy fond and watchful eye,
Our home is dark without thee,
We miss your dear face everywhere.

Two months ago you left us,
How we miss your smiling face,
But you left us to remember
None on earth can take your place.
A happy home we once enjoyed,
How sweet the memory still,
Off and oft we wander, Mother,
But death has left a loneliness
The world can never fill.

Never again another friend so faithful—
With love as steadfast as the sunlight's ray;
Asking no praise, but humble, thoughtful service
Never again, since Mother went away.
No shame so dark but Mother knelt beside us,
No poverty her cheer could not allay,
Least at the cross she stood in patient waiting
With silent grief to bear her dead away.

Never for her—thank God!—more hurt or sor-
row;
For us the endless ache—once more to lay
The head on that dear, all-forgiving bosom—
These empty months since Mother went away.

She was a Mother truly fond,
A friend both kind and true,
A better Mother never lived,
Her equals were but few.
In dreams we see you, dear, sweet face
And kiss your cold, cold brow,
And whisper as we loved you then,
Can never from your memory now.

One precious to our hearts has gone,
The voice we loved is stilled,
The place made vacant in our home
Can never more be filled.
Our Father in his wisdom called
The boon his love has given,
And though on earth the body lies,
The soul is safe in Heaven.

This day brings back to memory a dear
Mother laid to rest. Gone, but never to be
forgotten by her bereaved daughters,
Mrs. Flora Poland, Mrs. Anna Threlkeld,
Mrs. Sadie Locke and Mrs. Mattie Her-
kins, and two sons, Adna Herrick and
Lewis Poland.

THE OLD HOME ROAD
We are going down home today
To see the friends of old,
And the laughing Spring goes with us,
All dressed in their new green.
A charm is in the sky and air,
A sweet is the wild bird's song,
The road winds on, and thru the hills,
And flowers bloom all along.

The sudden shower breaks overhead,
The wind blows strangely chill,
But the cheerful voices call us
Just over yonder hill.
A cloud has shut the sun from sight;
Make haste to meet our friends!
What place is this? the churchyard gate?
The long day's journey ends!

SO WEAK
SO NERVOUS

How Miserable This Woman Was
Until She Took Lydia E. Pink-
ham's Vegetable Compound

Toomsboro, Ga.—"I suffered terribly
with backache and headache all the time,
and I was so weak and nervous I didn't know
what to do, and could
not do my work. My
trouble was deficient
and irregular peri-
ods. I read in the
papers what Lydia
E. Pinkham's Vege-
table Compound had
done for others and
decided to give it a
trial. I got good
results from its use
so that I am now able to do my work.
I recommend your Vegetable Compound
to my friends who have troubles similar
to mine and you may use these facts
as a testimonial."—Mrs. C. F. PHILLIPS,
Toomsboro, Ga.

Weak, nervous women make unhappy
homes, their condition irritates both
husband and children. It has been
said that nine-tenths of the nervous
prostration, nervous despondency, "the
blues," irritability and backache arise
from some displacement or derange-
ment of a woman's system. Mrs. Phil-
lips' letter clearly shows that no other
remedy is so successful in overcoming
this condition as Lydia E. Pinkham's
Vegetable Compound.

BRYANT'S POND
C. M. Wiske is having Birch Villa
camp enlarged and is also making changes
upon the inside of the present camp.
Contractor Noyes of South Paris has
charge of the job. The place is to be
opened sometime in June for city home-
ers. Twenty-five have already engaged
rooms for the season.

There was a fairly good attendance of
voters at the special town meeting held
Tuesday forenoon. G. W. Q. Perham was
elected moderator. The town voted to
extend \$200 in repairs on the road leading
from A. M. Andrews' factory to the Par-
is line. \$4,000 additional was raised to
be expended on the high school house ex-
tension, making \$10,000 in all. \$150
was raised for furnishing the addition.

The Ethel May Sherry Co. will make
their first visit here for the season, Sat-
urday evening, May 28, at the Opera
House. The play will be "The Hamp-
den of Tennessee."

Two garages for repair work were op-
ened here last week. Harry Sanborn,
who recently purchased the Crockett gar-
age and Ernest P. LeBlanc of Lewiston,

shop, are both busy.

day memorial address here at the usual
church hour next Sabbath. Services of
Memorial Day will be held here Monday

room in the Putnam school at Eggleston
Square where different schools in that
section come to her for instruction in sing-
ing. She has 640 pupils under her in-
struction. At a recent entertainment giv-
en at Eggleston Square, the Glee Club
and Orchestra, which had been trained
by Miss Bacon, gave a musical treat of
merit. They observed implicitly the bat-
ton of their teacher and carried the parts
remarkably well.

WE HAVE A LIVE PROPOSITION

Why Pick On Your
SHOE DEALER

It is a well known fact that tanners and most shoe manufacturers
have taken enormous losses. One tanner alone lost \$6,000,000.00 last
year. Shoe retailers all over the country are marking down their shoes
to replacement cost. Nevertheless, the woods are full of amateur econ-
omists WHO CLAIM PRICES OF SHOES WILL SHORTLY RE-
TURN TO PRE-WAR LEVELS, BUT WILL THEY? YES, THEY
SURE WILL:—

When hard coal is back at \$9 per ton;
When railroad fares are back at 2c per mile;
When house rent is back at \$10 per month;
When gasoline is back at 10c per gallon;
When telephones are back at \$1 per month;
When a square meal is back at a quarter;
When farm labor is back at \$25 per month;
When gas is back at 90c;
When shaves are back at 10c;
When the freight from N. Y., now \$1.84, is back at 97c;
When street car fares are back at a nickel;
When money is back at 5 per cent;
When cooks are back at \$5 per week;
When hair cuts are back at a quarter;
When movies are back at a nickel;
When a car-wash is back at a dollar;
When ice cream is back at a dime;
When a doctor's call is back at one buck;
When a newspaper is back at a penny.

For the love of Mike, why expect the manufacturer, wholesaler and
retailer of shoes to go the route alone? Aren't we Americans all in on
this proposition together? Haven't we got to work it out together?
Well, then, haven't the manufacturers, wholesalers and retailers of shoes
gone much faster and much farther than the average in reducing prices
and making readjustments? WE'LL SAY THEY HAVE. We're
ahead—way ahead of the procession. Now let the barbers and the
movie houses, and the Standard Oil, and the soft drink parlors, and the
landlords, and the hotels and restaurants, and the draymen, and the
bankers cut THEIR prices and catch up with the shoe men.

Petro-Tan

The Ideal Ointment

"I had not been able to use
one of my horses for several
weeks, owing to a sore neck.
I applied Petro-Tan to the
sore and in a few days began
to use her. It entirely healed
the sore while she was being
worked."
W. E. BRYANT.

"I burnt my arm on the
stove. The burn was big over
as a teacup and very painful.
I covered it with Petro-Tan
and bandaged with a cloth. It
removed the smart almost at
once and in two days I would
not have known there had
been any burn except for the
large scar."

Petro-Tan (pronounced Pet-ro Tan) is the ideal Household
and Stable remedy for all injuries and wounds of the skin. It is
especially adapted for use on cuts and burns on children. Sold
by druggists. Three sizes: 25c, 50c, \$1.00.

"As in the greatest cities so in his own home town—the U. S. Tire user gets fresh, live tires of current production."

THE U.S. CHAIN TREAD

One of the few tires of which it may be said that they deliver economy year in and year out and tire after tire.

The U. S. Chain Tread gives sufficient traction on all ordinary road surfaces. It is probably the handsomest, and by all odds the most popular, of the whole U. S. Fabric Tire Line.

"In every section, however remote, you find a dealer in fresh, live U. S. Tires."

Economy rides on U.S. Tires—

If you could get together all the car owners you know, you'd probably find that their tire experiences had been much the same.

Most of them have taken their fling at "job lots," "discontinued lines" and "surplus stocks." Soon or late, nearly all settled back on quality first as the one sound assurance of tire value.

As soon as a man forgets the cut-price tag, and comes to the dealer who concentrates on a full, completely sized stock of U. S. Tires—he learns what it means to get *fresh, live tires*—not once in a while but *every time*.

Not merely in the big cities, but in his own home town.

Not merely for the heavy car, but for the medium and light-weight car—a full selection of size, tread and type.

Your U. S. Tire dealer can give you this service because of the service he gets from his neighboring U. S. Factory Branch. There are 92 of these Branches. Each gets its share of U. S. Tires, so that the dealer is always supplied with fresh, live stock.

U. S. Tires sell as fast as they are made.

There is no over production. No surplus piled up waiting for a "market."

Wherever you buy a U. S. Tire— you buy a tire of *current production*, as full of life and value as the day it left the makers.

RANGLEY LAKE FISHING NOTES

Scott's Camps, May 21, 1921.

I arrived here on the 17th having left Middle dam on the 15th and stayed at Upper Dam two days. To get here seems like getting home and the trout were waiting for me.

I had the fishing at Middle Dam all to myself for four days. While there I got the net under 95 fish—72 salmon and 26 trout. The latter were all small, the largest probably not weighing 12 ounces. The salmon, with few exceptions, were all of good size. A few would have weighed over 4 pounds and many between 3 and 4. I killed nine fish and the rest were returned to the water.

Most of them were taken on the long-tailed trailer of the Plymouth Rock species. I did, however, hook a salmon on an entirely black fly, also on a brown one—and a black and white and red and white.

The trout here come to the fly ravenously and weigh right around two for the pound but occasionally one weighing over a pound is caught. Have got 3 or 4 of this kind. The other evening did not rise a fish until it was dark—so dark I could not see the flies. When they did come, it seemed that a pack of hungry wolves were let loose in the water. All the flies on the cast did business and Walter coaxed them into the net with a flashlight. I've taken some sixty fish and killed ten. These have been used in the camp.

At the Upper Dam I copied the list of "Record fish" for 24 years. Got date, name and weight and whether trout or salmon. Am thinking of printing it in booklet form. The first ten years shows that 438 trout weighing 3 pounds or more and 415 salmon were taken. The last ten years 159 trout and 661 salmon. This shows that 3-pound salmon are increasing and trout decreasing and inside of another decade trout will be a rarity in these waters.

The Upper Dam record covers 1897 to 1920 inclusive—total number of red spot trout taken 685 and black spot trout or salmon, 1401. Total catch of "Records" in 24 years, 2086, and at the minimum shows over three ton.

A careful addition of the weight no doubt will exceed four ton. I'm to add it when I get where there is an adding machine and tell you of it later.

I met "Fly Rod" at the Upper Dam. She was on her Spring trip gathering sporting news and greeting old friends as well as new ones. She travels with the aid of a crutch and is as enthusiastic as ever over fish, scenery and outdoor sports.

Otis O. Allen and son Osburn Allen of Waterville came into camp here yesterday and got three trout. Otis O. Allen was born in Canton, Me., 82 years ago, and is the last surviving son of a real Revolutionary soldier. His son, Osburn works for the Bradstreet Company and was taking his father along with him this week and they stopped a few hours here.

The Hopkins party were at Upper Dam last week. They are a paper-making crowd. There were 30 of them coming from many states in the Union. Each sport had a guide and sixty in one party is some regiment.

Mother Scott and Jim have wintered well, having stopped at Fairbanks', in Farmington. The ice leaving so early up-set plans but the camps are in good condition and the food service is just as delicious as ever. The boats are in demand every evening and the camps are filled most of the time with eager fishermen. The pets are numerous: 5 cats, a noisy parrot, 40 chickens, 18 hens and rooster. One hen is setting and won't be off the nest until June. The mischievous tame crows of a few years ago have not returned.

I expect to leave here the first of the week on my return trip.

MY DAYS AND NIGHTS IN THE HOSPITAL

No. 9
Many calls were made upon me at the hospital by my young friend, Vernon W. Kimball and his "Little Beauty" of a wife, which greatly cheered me. They with her good mother, Mrs. Clement, were our neighbors and closest friends at Great Diamond Island, last summer. No better people ever lived. Mr. Kimball is a Bethel boy and one of the most trustworthy and capable young men of my acquaintance. He is now in the employ of the Fidelity Trust Company of Portland at a big salary. Before her marriage Mrs. Kimball was employed in one of the business houses of Portland. She is one of the beauties of the city and a great favorite with all who know her. Mr. and Mrs. Kimball have an heir a few months old which the father thinks as pretty as its mother—perhaps, but I want to see it before I pass my judgment.

No folks were more sympathetic than the family of Wm. H. Rice. His father was the old stage driver and landlord of the tavern at North Waterford years ago. For many years he drove the stage from Fryeburg to Augusta. His route was through Norway village, South Paris, Paris Hill and Buckfield. Besides cards of sympathy from both Mr. and Mrs. Rice many calls were made on my family at home to learn how I was getting along.

I was very much cheered to get a card of sympathy from Mrs. Charlotte Moore, who was being treated at the Eye and Ear Infirmary. She had undergone a severe operation, a part of the bone of one of her lower limbs having been removed. It touched me deeply that she could forget her own sufferings to send me a few words of sympathy. This is the institution where Lona Noble, a Norway lady, is Assistant Matron and where the late Edward Burrell received treatment a year ago. Mrs. Moore is now at home and doing well, and will ultimately recover the full use of her limb.

It was pleasing, too, to receive sympathetic messages from Mrs. Adelia Crooker and her splendid daughter, who who is a great favorite wherever she is known. And here I will relate a little incident that happened about 1852, that may be of interest to some Norway people. The families of Thomas Higgins and Ansel Dinsmore were then living on the south side of the stream in the village and were very intimate. Mr. Higgins was a hardware dealer. Mr. Dinsmore a carpenter and builder. The former had two daughters, Adelia and Ella, (perhaps the second one was not then born) and the latter one daughter, Mary A., who has always been called Adelia. She was then four years old and Adelia was eight. Adelia was a pupil at what is now the upper primary. A plank walk crossed the stream opposite the schoolhouse grounds which was extensively used by the people living on the south side of the brook. Miss Higgins took little Miss Dinsmore to school with her one day and they went across the stream on the plank walk. On returning home, the younger one lost her balance and fell into the water, but was quickly pulled out. No harm was done except a big fright and a good wetting, but that incident was so impressed on the little maid's mind that she has never forgotten it to this day.

Hon. Harry R. Virgin, a former Norway boy, but now one of the leading lawyers of Portland, on learning that I was in the hospital, called to see me one Sunday afternoon. Harry has served in the Legislature with distinction and was President of the Senate. Judge Wm. Wirt Virgin and General Harry Rust were great friends. The former was a Major General in the militia on the breaking out of the Civil war, and served as Colonel of the 29th Maine Reg't. Rust was a Lieutenant in the Norway Co. of the 1st Me. and was promoted to Colonel of the 13th Me. Reg't. and Brevet Brigadier General. The Norway Grand Army Post was named for him. Virgin thought so much of Rust that he named his only son and child Harry Rust Virgin.

Harry told me that he and his wife were enjoying life at the Falmouth Hotel for the winter. He deplored the fact that all his uncles had passed over on the other side and most of those he had known in Norway. He made special inquiries about Clarence Smith and Charles G. Blake. The former was the fine scholar and leader in the Norway High school 55 years ago. Blake was Harry's companion in misfortune, when both got their lameness upon the ice of the lake one winter.

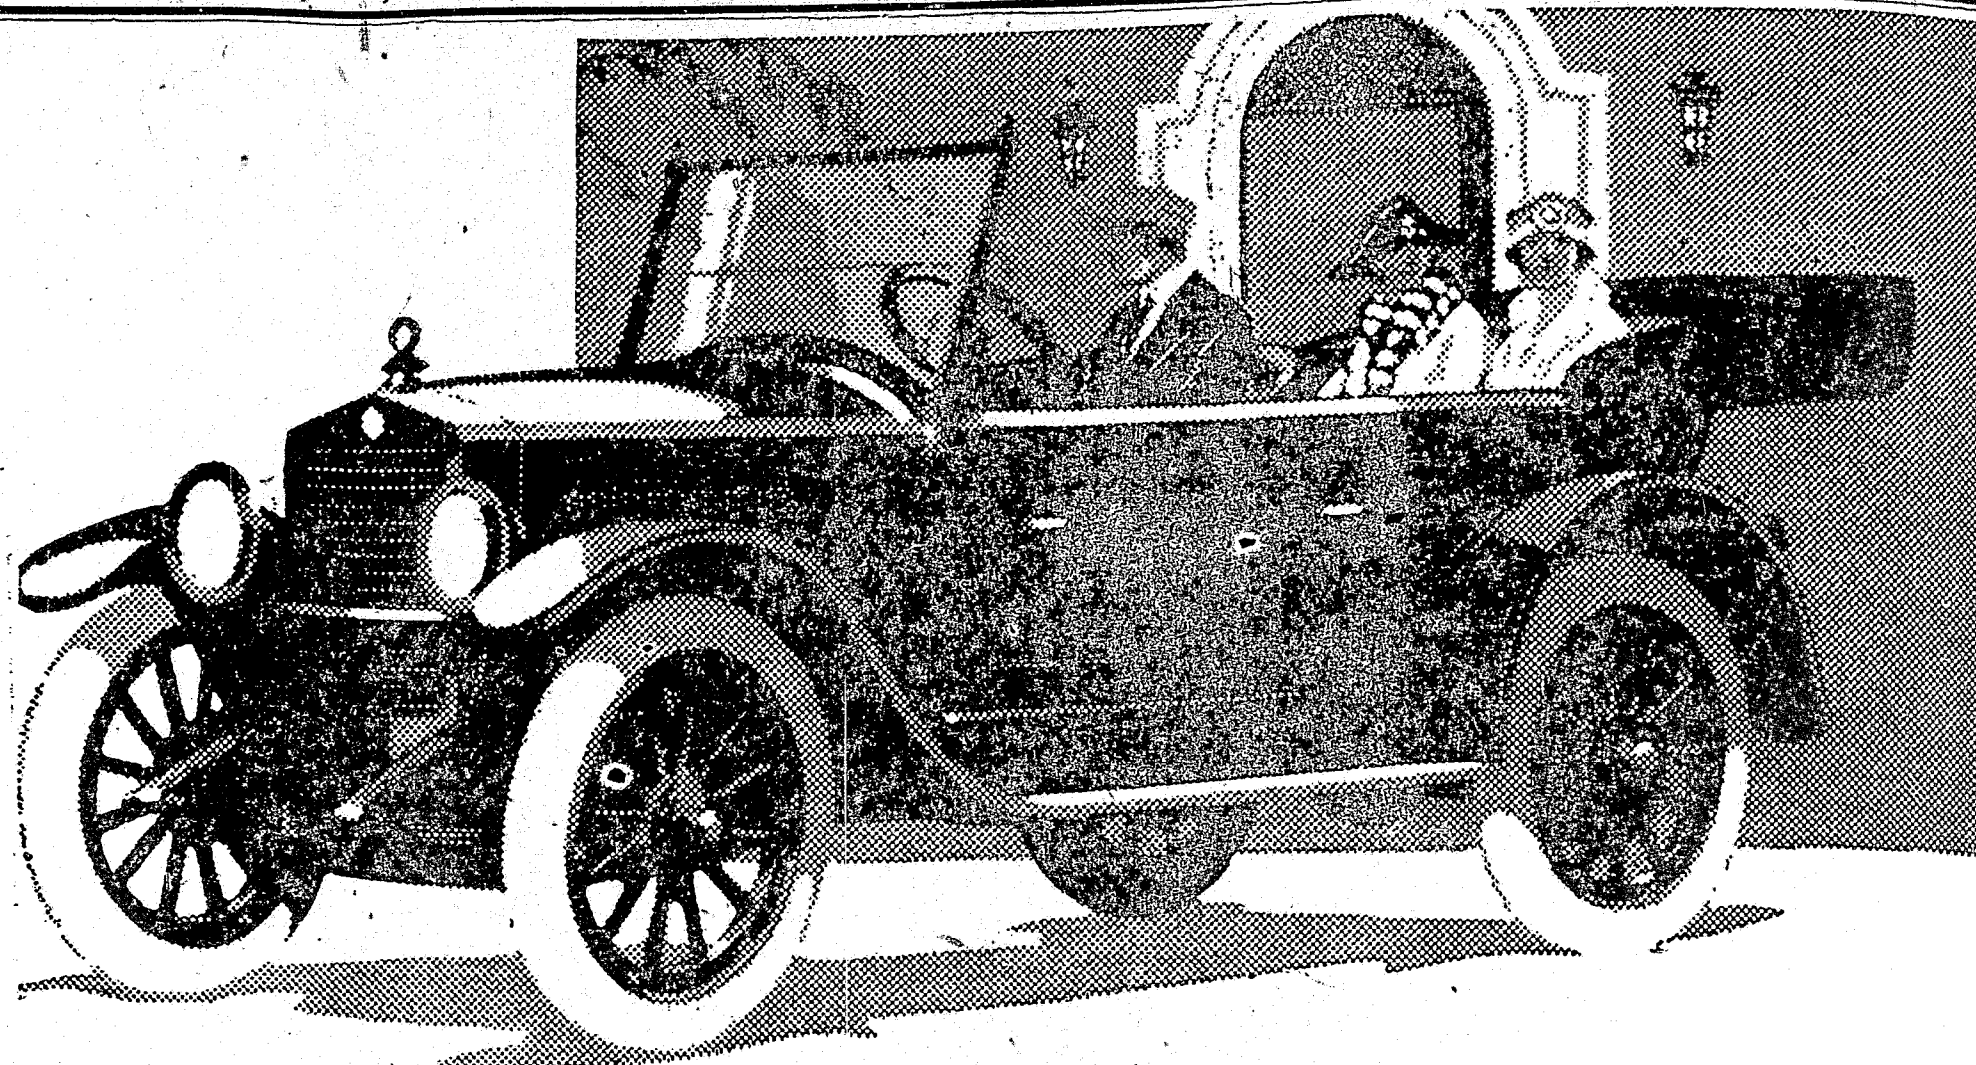

Capt. George F. Hathaway did not forget me in my shut in days. He has been one of my closest friends since he came back to Norway to live permanently. Mr. Hathaway served three years or more in the regular army down on the Mexican border. He was also for a period a Bangor policeman, and is now Chairman of the Selectmen of the town. George is successful in getting the "plums" and deserves them.

I prize very much the message of sympathy from "Little Beauty" Kimball. I have lost a leg since the war, I would take measures to get him an artificial one if he would allow it. We have always been close friends since we became acquainted.

C. F. Whitman.

P. S.—Last week Thursday (May 19th) I felt able to go down to our cottage on Great Diamond to make arrangements for our summer occupancy and having a little garden made for small stuff and the next day before I came home had time to call at the hospital. I hoped to meet the skillful surgeon, Dr. Mitchell, to whom I am greatly indebted for saving my life. The feelings contrast in my going there this time and when taken to the institution in November last, can better be imagined than described. Those I wished most to see with the exception of one nurse "the pink of the lot," I was not disappointed in meeting, but the "good, Joey" was here to warmly greet me with those who had the most for me. My heart was very tender and overflowing with joy and gratitude as I grasped the hands of my faithful nurse, Miss Thurston, the efficient orderly, Dr. Milliken, and the great surgeon, Dr. Alfred Mitchell. (When I got down to the cottage by the sea for the summer, I will say here that I mean to organize an association of those who have been operated upon by him and my good friends at the hospital will be invited to join it as honorary members.)

I have found out Mr. Editor that lots

What Gives Owners Such Faith in Essex?

The people who know Essex rely on it chiefly, for the simple reason they have never encountered a situation of which it was not master.

More than by any other factor men have been guided in their preference for the Essex by the endurance and reliability which unmistakably sets it apart from other light cars.

Yet the confidence of Essex owners that their car will go anywhere, with a

possibility of trouble so remote that it does not even enter into calculations, contains something more than a feeling of absolute assurance in its mechanical reliability.

No car could possess a more sincere belief in its goodness, its every-day dependability, and its capacity to do the task assigned without fret and fuss, than that which 50,000 owners bestow upon the Essex.

of people are reading these sketches (three more to come this week). Mr. Roscoe F. Staples, town clerk and treasurer of Oxford, read some of the first ones and came to see me. His trouble was like mine. I advised him to go to Doctor Mitchell and to trust him implicitly in what he thought it would be best for him to do, but I heard nothing from him as to what he did do. Dr. Milliken told me that one of the men he thought I knew was being treated in one of the wards. He took me up to see him. It was Mr. Staples who had had his operation and was doing finely. I said to him that I was glad to find him there, for I knew he would now get over his trouble and be well.

SUPREME JUDICIAL COURT

Considerable business has been transacted the past ten days at Rumford and many important cases settled by jury. Among the important verdicts rendered are the following:

James Gallant vs. Lawrence Peterson was a damage case in an accident of automobiles, a verdict was returned for the plaintiff in a sum of \$296. The lawyers in this case were George A. plaintiff and Albert Beliveau and Matthew McCarthy for defendant.

Another automobile damage was that of John Warren vs. Turner Center System, and in this the plaintiff received \$103.06 damages. A. E. Stearns appeared for plaintiff and Ralph Parker for defendant.

S. S. Tripp vs. Julius P. Skillings was a suit to recover a board bill, and the verdict returned was for the full amount of the bill. H. H. Hastings appeared for Tripp and Alton C. Wheeler for Skillings.

A verdict of \$216.33 was given Tony Albrecht, who sued John Wiskont for \$200 alleged to have been taken from him. Albert Beliveau was Albrecht's lawyer and George A. Hutchins was Wiskont's.

La Croix & Poulin, real estate dealers brought an action against Xavier Boivin to recover the amount of a note given for the sale of the defendant's house. Verdict, \$211.06. A. E. Stearns for plaintiff and Albert Beliveau for defendant.

The case of Arthur Whitman vs. Mark Allen was an action to recover the price of a Ford truck valued at \$600 and a Ford touring car valued at \$400. This was brought on the ground that Whitman was not of age at the time of certain transactions; also that he was not competent to transact business because of insanity. The case was taken from the jury by order of Judge Philbrook and sent to the law court. Alton C. Wheeler appeared for the plaintiff and H. H. Hastings for defendant.

The case of Charles E. Hadley vs. Elden T. Garey was for the value of a rearing heifer claimed to amount to \$200. Hadley was leading her along the road in Summer when Garey came along in an auto driving very fast, according to Hadley. The animal was hit breaking her leg, and causing her to be killed. Garey denied driving at excessive speed and claimed to use due care in passing. He says the heifer alone is responsible for the accident. The jury found for defendant. An appeal was filed. F. R. Dyer appeared for plaintiff and Alton C. Wheeler for defendant.

Herbert L. Ames vs. Sewell A. Mayhew was to recover \$175 for moving a building in the town of Mexico. The defendant claimed the building was not delivered according to contract. The jury returned a verdict for the \$175 plus interest, in all amounting to \$183. N. G. Foster appeared for plaintiff and Matthew McCarthy for defendant.

Thursday afternoon, Frederick L. Ray appeared against the Dupont Powder Co. in a case involving \$5,000 for damages. Seventeen witnesses were called by the plaintiff and five by the defendant. Hon. Frank A. Morey of Lewiston was plaintiff's lawyer, while Bradley, Linnell & Jones of Portland appeared for defendants.

Moskus Case to Go to U. S. Court of Appeals

The case is now to be taken to the Supreme Court of Appeals upon a writ of error. This writ of error will be based upon the ruling of Associate Justice Morrill, at the time of Moskus' trial in South Paris in October, 1919, to instruct the jury with reference to the first amendment to the constitution of the U. S. when requested by Hon. Frank A. Morey, counsel for the respondent.

The procedure in a case of this kind is as follows: Michael Moskus, the respondent in the case, appears in the Supreme Court of the county where convicted and surrenders himself. The presiding justice then places him in the custody of an officer to await the trial of the court. Whether this custodianship lasts a few minutes or so long that it necessitates the respondent's being locked up, depends entirely upon the celerity with which the other steps in the proceedings are made.

The next step is to apply for a writ of mandamus, taking the case to the Supreme Court of Appeals on the writ of error as already outlined. This writ of mandamus being granted, it will then become necessary for Moskus to go before the Chief Justice of the Supreme Court of Maine who will then fix his bail, and the execution of the sentence of the court of Maine will be suspended until the decision of the U. S. Court of Appeals is rendered.

The case of Michael Moskus is the only one of its kind ever tried in Maine and one of the very few recorded in the law books of the world.

with Kodak Anastigmat f.7.7 lens

\$25.00

For all-round, day-in-and-day-out picture making, the 2C has always particularly appealed to us—we think it will particularly appeal to you. It's compact and convenient to carry, for example, and yet the picture it makes is just short of post card size—2 1/2 x 4 1/8 inches.

And then its lens equipment. The Kodak Anastigmat is designed by Kodak experts and manufactured in Kodak factories for the particular Kodak on which it is to be fitted. As a result lens and shutter and auxiliary equipment are in perfect harmony—and better pictures follow as a matter of course.

See it here. We are featuring the "2C Junior" in our Kodak department

\$675 Delivered to Your Farm WHAT HENRY FORD SAYS ABOUT MACHINE POWER FARMING

"In the tractor the farmer now has a machine in which is harnessed one of the most adaptable, efficient, economical sources of power in the world—the internal combustion engine."

"The tractor will multiply the productive capacity of each individual farm worker from three to four times over."

"It will put the farmer on a par with the city manufacturer. It will put his produce-producing factory—for that is what a farm is—on to an efficient production basis."

"It will enable each worker to earn so much more that he can be paid more and still leave a greater profit for the man who hires him. It will enable the farmer to work fewer hours in the day, giving him more time to enjoy life."

"I believe the tractor will make farming what it ought to be—the most pleasant, the most healthful, the most profitable business on earth."

Millettville School Entertains
The Millettville School gave an entertainment and social Tuesday evening. There are eight little children from six to fifteen years of age in the school this term. Verna Westleigh, the teacher, invited the parents and friends to listen to a very interesting and pleasing program. There were recitations from seven of the children on different subjects appropriate to Spring and its birds and flowers. All were well given, even the tiny tots telling of the secrets of the birds' nests, the little dandelion and the robin builders.

After the program came a big mystery Maybasket of lavender and white filled with packages large and small. All you had to do was pull a string and secure one for whatever price it was marked. There was also a liberal supply of all kinds of homemade candy on sale and pink lemonade. A good amount of cash was taken in to buy some "extras" for the school room.

Mellie Dunham and Cherri Noble played for games and dancing and the entire affair was very enjoyable and successful. The schoolroom was a lovely scene, ferns and cherry blossoms. There were more than 34 present. The children taking part were Merton Berry, Lawrence Jordan, Anna Holt, Lawrence Yates, Frances Noble, Dorothy Noble and Eva Jackson.

61-2 per cent. yield Always is a Good yield

Ten per cent yield is LOW if you DON'T GET IT. 6½ per cent yield is HIGH, when you always do get it.

Now that deflation is running its course, many investors are again checking over their investment for SAFETY.

More and more, they are turning to Central Maine Power Company 7 per cent Preferred Stock. Its yield is 6½ per cent—not high as compared with many preferred stocks, but a satisfactory yield, considering that it is always forthcoming and has been since the security was first issued over eighteen years ago.

After all, now that deflation is here, isn't 6½ per cent, combined with what Maine investors feel sure is absolute safety, about all anyone wants?

ANNUAL REBEKAH MEETING

The annual meeting of Rebekah Lodges in District No. 6 was held with Eudora Lodge of Bridgton, May 30th, and was a very pleasant and profitable session. This district comprises the Rebekah Lodges in Bridgton, Harrison, North Waterford and Lovell, all of which were well represented. There were present, Mrs. Eva L. Fasset of Dexter, president of the Rebekah Assembly; Mrs. Lucy A. Burton of Pittsfield, vice president, and Mrs. Myra M. Cheever of North Waterford, deputy president of the district, also two visiting deputies, Mrs. Russell from Cornish and Mrs. Garland from Auburn.

The afternoon session was devoted principally to a school of instruction in charge of the vice president when the practical work of the order was discussed and many puzzling questions answered.

A splendid banquet was served at six o'clock to 250 people and these composed the evening gathering, the attendance in the afternoon having been somewhat smaller.

The address of welcome by Eva Shorey of Bridgton and the response by Mrs. Ella Charles of North Waterford were both replete with helpful thoughts. An impressive memorial service for the nine members who have passed on during the year was conducted by Woodland Lodge of Harrison.

The degree was exemplified by the degree team of the hostess lodge in a very fine manner. Five sisters were found perfect in the unwritten work and so qualified for the Certificate of Perfection. They were Eva Paine, N. G., and two other sisters from Eudora Lodge, Ellen Farmer N. G., of Evergreen Lodge, and Ella McKeen, N. G., of Sabattus Lodge. Every N. G. in the district has now qualified for the Certificate of Perfection. A good collection was taken for the Home Fund. Beautiful flowers were presented to the President, Vice President, and District Deputy. Ice cream was served after the evening meeting and altogether it was a very inspiring meeting, reflecting credit on the hostess lodge and the entire district.

District attendance was about 200 and visitors were present from Fryeburg, Denmark, Cornish, Norway, Mechanic Falls, Auburn, Otisfield and Dexter.

EAST FRYEBURG.

Louis Goddo of Manchester, Mass., has been here the past week getting his camp in order for the season. He expects to bring his family about June 15.

Wilbur Douglas who has been away working for a portable mill the past two years, has returned with his family and resumed farming operations.

Frost Thursday morning, 10 in the shade Saturday.

The frame of the Dr. Walker bungalow on Walker's Hill is up and looks fine.

Frank and Walter Sanborn and Mr. and Mrs. Henry W. Lord attended the District Rebekah meeting at Brownfield on Saturday evening. It was royally entertained.

This neighborhood was shocked to hear of the sudden death of Mrs. Nellie Cole of Bridgton of heart trouble on Friday, May 20. Mrs. Cole was the daughter of Rev. B. C. and Mrs. Emily Claiborne and was born in East Fryeburg, May 23, 1876, and lived here until about five years ago when they sold the homestead and bought the home where they have since lived. Mrs. Cole was a lovely woman and will be greatly missed.

Besides Mr. Cole, she leaves two daughters, one married, the other in the graduating class at Bridgton High School. The funeral services were held Sunday at the late home and was largely attended. The floral offerings were beautiful. Burial in Mt. Pleasant Cemetery.

As has been the custom for years those having lots in the Mt. Pleasant Cemetery met there on last Saturday when the whole yard was mowed over, raked, and cleaned up, over twenty-two horse loads of filling was used in filling the low places. The ladies furnished dinner and aided in all ways. After the many years this has been done this cemetery takes on the look of the village cemetery where perpetual care is carried on and no lot is passed over. This is a great contrast to the usual rural graveyard and should be encouraged.

Kathleen Douglas is at home from Fryeburg Academy with measles.

The Lure of BIRTH STONES

MAY

The special and traditional virtues of the emerald, the natal stone of May, is to reveal the truth or falsity of lover's oaths, making only happy marriages possible. Furthermore emeralds sharpen the wits, confer riches and the power to foresee future events. Caesar carried one when he went to the Circus for it mirrored perfectly that which passed off. Cleopatra was presented with an emerald bearing an engraved cameo of herself by which she is fabled she could read and control the thoughts of those who visited her court.
